

Nature's Botanical R&C	SAFETY DATA SHEET
Nature's Botanical Lotion	

1. Identification of material and supplier

Product Identifier (name)	Nature's Botanical Lotion
Other identification	Contains Rosemary oil (6.8%) and Cedarwood oil (6.8%)
Recommended use	Topical Application
Supplier	National Machinery Traders (NSW) Pty Ltd Unit 7, 227 Old Hume Hwy, Mittagong NSW 2575 Australia Phone: +61 2 4872 2200; E-Mail: enquiries@naturesbotanical.com Website: www.naturesbotanical.com
Emergency Information Contact	If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 131126

2. Hazard Identification

Statement of hazardous/dangerous nature	NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.
Classification	Within the present knowledge of the supplier, this product is not regarded as hazardous, as defined by Approved Criteria for Classifying Hazardous Substances [NOHSC:1008(2004)] 3rd Edition
Risk phrases	

3. Composition/information on ingredients

Ingredient	CAS No.	Concentration	Hazard Codes
Rosemary Oil	8000-25-7	6.8%	-
Cedarwood Oil	8000-27-9	6.8%	-
Other nonhazardous ingredients	-	>60%	-

4. First Aid Measures

Inhalation	No significant hazard expected based on acute oral toxicity. If reaction occurs wash treated skin with soap and water. Call medical doctor or poison control centre if symptoms persist
Ingestion	No significant hazard expected based on acute oral toxicity. Wash out mouth with water
Skin contact	No significant hazard expected based on acute dermal toxicity and lack of skin sensitisation potential. If skin reaction occurs, wash skin thoroughly with soap and water. . Call medical doctor or poison control centre if symptoms persist.
Eye contact	Immediately flush eyes with plenty of water, occasionally lifting the upper

<p>Symptoms caused by exposure</p> <p>Advice to doctor</p>	<p>and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs</p> <p>No symptoms of toxicity are expected from recommended use. Slight eye irritation may be possible.</p> <p>Treat symptomatically</p>
<h2>5. Fire Fighting Measures</h2>	
<p>Extinguishing media:</p> <p>Suitable</p> <p>Not suitable</p> <p>Special exposure hazards</p> <p>Hazardous thermal decomposition products</p> <p>Special protective equipment for fire-fighters</p>	<p>Use dry chemical, CO₂, water spray (fog) or foam or extinguishing media appropriate to surrounding fire</p> <p>Do not use water jet</p> <p>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool</p> <p>Decomposition products may include the following materials: carbon dioxide, carbon monoxide & nitrogen oxides</p> <p>None</p>
<h2>6. Accidental release measures</h2>	
<p>Personal precautions</p> <p>Environmental precautions</p> <p>Methods for cleaning up</p>	<p>No specific actions required</p> <p>Avoid dispersal of spilt material to waterways, drains and sewers. Move containers from spill area. Absorb with an inert dry material or collect using appropriate equipment and place in an appropriate waste disposal container</p> <p>Move containers from spill area. Absorb with an inert dry material or collect using appropriate equipment and place in an appropriate waste disposal container</p>
<h2>7. Handling and Storage</h2>	
<p>Handling</p> <p>Storage</p>	<p>Do not ingest. Avoid contact with eyes</p> <p>Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Do not store in unlabelled containers</p>
<h2>8. Exposure controls/personal protection</h2>	
<p>Other Exposure Information</p> <p>Engineering Controls</p> <p>Hygiene measures</p> <p>Eyes</p> <p>Hands</p> <p>Respiratory</p> <p>Skin</p> <p>Environmental exposure controls</p>	<p>None assigned by Worksafe Australia</p> <p>None for normal use</p> <p>Avoid contact with eyes. Wash hands after use</p> <p>No protection required when used as directed</p> <p>No protection required when used as directed</p> <p>No protection required when used as directed</p> <p>No protection required when used as directed</p> <p>No controls required</p>

9. Physical and chemical properties

Physical state	Lotion
Colour	Oily liquid
Odour	Distinctive essential oil fragrance
Boiling point	Not applicable
Melting point	Not available.
Vapour pressure	Not available.
Density	Not applicable
Flash point	Not applicable
Vapour density	Not applicable
pH	pH=5
Viscosity	Not applicable
Solubility	Soluble in organic solvent
Flammability	Not flammable

10. Stability and Reactivity

Chemical stability	The product is stable under normal conditions of storage
Possibility of hazardous reactions	Under normal conditions of storage and use, hazardous reactions will not occur
Conditions to avoid	Not applicable
Materials to avoid	Not applicable
Hazardous decomposition products	Not applicable

11. Toxicological information

Acute toxicity	Low acute toxicity from oral, dermal and inhalation routes based on toxicity of individual ingredients.
Skin corrosion / irritation	No skin irritation is expected based on properties of individual ingredients
Serious eye damage / irritation	Mild eye irritation is possible based on properties of individual ingredients
Respiratory or skin sensitisation	No sensitisation is likely based on properties of individual ingredients
Potential chronic health effects	No chronic health effects are expected based on properties of individual ingredients
Mutagenicity	No mutagenic effects are expected based on properties of individual ingredients
Carcinogenicity	No carcinogenic effects are expected based on properties of individual ingredients
Reproductive toxicity	No reproductive effects are expected based on properties of individual ingredients and use as instructed
Specific Target Organ Toxicity (STOT) - single exposure	No known specific target organ toxicity
Specific Target Organ Toxicity (STOT) - repeated exposure	No known specific target organ toxicity
Aspiration hazards	No aspiration hazards are expected based on properties of individual ingredients

12. Ecological information	
Ecotoxicity	No known significant effects or critical hazards
Other adverse effects	No known significant effects or critical hazards
Environment Protection	Avoid contaminating waterways, drains, sewers, or ground
13. Disposal considerations	
Methods of disposal	Waste must be disposed of in accordance with federal, state and local environmental control regulations. Waste packaging can be recycled
Hazardous waste	Within the present knowledge of the supplier, this product is not regarded as hazardous, as defined by Approved Criteria for Classifying Hazardous Substances [NOHSC:1008(2004)] 3rd Edition
14. Transport information	
Transport Information	Not a Dangerous Good
UN Number	Not applicable or required
Proper Shipping name	Not applicable or required
Transport Hazard Class	Not applicable or required
Packaging group	Not applicable or required
Environmental hazards	Not applicable or required
Special Precautions	Not applicable or required
Hazchem or Emergency Action Code	Not applicable or required
15. Regulatory information	
Standard for the Uniform Scheduling of Medicines and Poisons Poison schedule (Australia):	Not a scheduled substance
Australia inventory (AICS)	Rosemary Oil CAS No:8000-25-7; Cedarwood Oil CAS No.:8000-27-9
16. Other information	
Date of preparation	16/07/2014
Abbreviations and acronyms	NOHSC = National Occupational Health and Safety Commission (Australia)
End of SDS
